THIS MYSTERIOUS BEAUTY HAS BEEN INTRIGUING PEOPLE FOR CENTURIES.

In the 12th century the construction of French Carthusians' home in the remote valley of St. John the Baptist was ordered. Since then, the Žiče Charterhouse has been awakening specific energy. Although the life of monks in **Žiče Charterhouse** had died out after the decree of Emperor Joseph II, today this divine place is alive again - a place for relaxation, escape from the hustle and bustle, a concert or even a fairytale wedding. Since 2022 it awaits visitors with a newly renovated roof and a new viewing platform. When visiting Žiče Charterhouse don't miss the chance to visit the oldest still operating Slovenian Inn - Gastuž or experience a new program of total silence at the herbal garden.

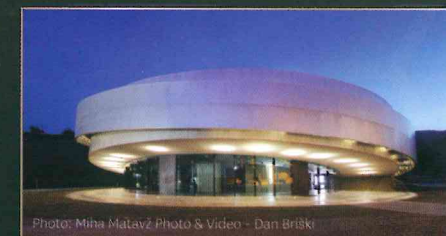

NATURE AS SEEN BY THE BIRDS

Climb up to the mighty tower and walk along a 1000 m long path among the trees. **The Pohorje Treetop Walkway** is the first experience of its kind in Slovenia. It is set in the heart of the endless Pohorje forests, on top of Rogla, at an altitude of 1517 meters. The walkway will show you why Pohorje nature is unique. You will be able to explore spruces from the roots to the treetops and become a part of life in the forest.

GOLDEN HILL - A MUST FOR WINE LOVERS

When you think of Slovenske Konjice, it is hard to overlook the famous views of the hills, interspersed with charming vineyards.
